

BAILIWICK OF GUERNSEY LAW ENFORCEMENT

12th June

Media Statement

Superintendent Operations Phil Breban said: “Since our last update, this investigation has been continuing and we have received a number of – but not all – the final UK experts reports into this complex and challenging matter. In addition, the UK National Crime Agency (NCA) has also visited Guernsey and worked with the investigating team to provide assistance and support in this case. The NCA provide this service to police forces across the UK, particularly in such cases as this one. This joint working with the NCA has provided opportunities to build on the significant and detailed work undertaken so far.

“We continue to work closely with the family of Mr Alps as this investigation continues.”
